

### §717.3

(E) All appropriate evidence or reasons provided by the requesting State Party for seeking the inspection.

(ii) In addition to appropriate information provided by the OPCW in its notification to the USNA, the notice of inspection that BIS delivers to the facility will request the facility to indicate whether it will consent to an inspection and will state whether an advance team is available to assist the site in preparation for the inspection. If an advance team is available, facilities that request advance team assistance are not required to reimburse the U.S. Government for costs associated with these activities. If a facility does not agree to provide consent to an inspection within four hours of receipt of the inspection notification, BIS will assist the Department of Justice in seeking a criminal warrant.

(c) *Period of inspection.* Challenge inspections will not exceed 84 hours, unless extended by agreement between the Inspection Team and the Host Team Leader.

(d) *Scope and conduct of inspections—*  
(1) *General.* Each inspection shall be limited to the purposes described in this section and conducted in the least intrusive manner, consistent with the effective and timely accomplishment of its purpose as provided in the Convention.

(2) *Scope of inspections.* If an owner, operator, occupant, or agent in charge of a facility consents to a challenge inspection, the inspection will be conducted under the authority of the Act and in accordance with the provisions of Article IX and applicable provisions of the Verification Annex of the Convention. If consent is not granted, the inspection will be conducted pursuant to the terms of a criminal warrant issued under the authority of the Act.

(3) *Hours of inspections.* Consistent with the provisions of the Convention, the Host Team will ensure, to the extent possible, that each inspection is commenced, conducted, and concluded during ordinary working hours, but no inspection shall be prohibited or otherwise disrupted from commencing, continuing or concluding during other hours.

(4) *Health and safety regulations and requirements.* In carrying out their ac-

### 15 CFR Ch. VII (1–10 Edition)

tivities, the Inspection Team and Host Team shall observe federal, state, and local health and safety regulations and health and safety requirements established at the inspection site, including those for the protection of controlled environments within a facility and for personal safety.

(5) *Pre-inspection briefing.* Upon arrival of the Inspection Team and the Host Team in the vicinity of the inspection site and before commencement of the inspection, facility representatives will provide the Inspection Team and the Host Team with a pre-inspection briefing concerning the facility, the activities carried out there, safety measures, and administrative and logistical arrangements necessary for the inspection, which may be aided with the use of maps and other documentation as deemed appropriate by the facility. The time spent for the briefing may not exceed three hours.

### §717.3 Samples.

If requested by the Inspection Team, the owner, operator, occupant or agent in charge of a facility must provide a sample, as provided for in the Convention and the Act and consistent with requirements set forth by the Director of the United States National Authority in 22 CFR part 103. This may be done by providing a sample, taken in the presence of the Inspection Team, to the U.S. Host Team leader, who will then release it to the Inspection Team for analysis. Analysis of the sample may be restricted to verifying the presence or absence of Schedule 1, 2, or 3 chemicals, or appropriate degradation products, unless agreed otherwise.

### §717.4 Report of inspection-related costs.

Pursuant to section 309(b)(5) of the Act, any facility that has undergone any inspections pursuant to the CWCR during a given calendar year must report to BIS within 90 days of an inspection on its total costs related to that inspection. Although not required, such reports should identify categories of costs separately if possible, such as personnel costs (production-line, administrative, legal), costs of producing records, and costs associated with shutting down chemical production or
